Guidelines for Promotion and Discount Campaign Requests

Steps:

To obtain licenses for promotional campaigns and commercial discounts, the applicant must follow these steps:

1. Visit the Ministry of Industry & Commerce website or the eGovernment portal bahrain.bh. Choose the Promotional and Sales Campaign Request service. Register and log into the system using the authorized applicant's electronic key.
2. The applicant selects either a promotional campaign or commercial discounts service and records the necessary data for the promotional campaign or commercial discount. Then, attaches the required documents related to the promotional offer or discount.
3. The request is submitted to the Promotion and Discounts section for review and verification of compliance with the conditions and final approval.
4. After the review, the applicant receives an email either containing amendments to the request itself by correcting the entered data or attaching other required documents or completing the payment process to obtain the necessary license if the request is fully compliant.
5. Upon approval, the electronic payment process must be completed (for promotional campaigns only), and the certificate is issued. The applicant receives an email with the balance and the license certificate for conducting the promotional campaign or commercial discounts.

General Guidelines:

- The applicant must possess an electronic key.
- The applicant can be the owner of the commercial registration or the authorized signatory. Any person authorized by the owner of the commercial registration can also submit requests through the electronic system.
